DIVERSIFYING THE EDUCATOR WORKFORCE  
ONE STUDENT AT A TIME

## Program Coordinator

### John Beck, M.S

John Beck began serving the Lourdes community in 2022 as an instructor in the education department teaching courses in educational technology, classroom management, and community, school, and family relationships. He is a dedicated teacher with a passion for educational technology.

John has a Bachelor of Education in Early Childhood Education as well as a Bachelor degree in Computer Science. He also holds a Master of Science in Computer Science with a specialization in software engineering from Bowling Green State University.

Prior to working at Lourdes, John worked at Owens Corning in Toledo, OH. While in the Information Systems Department at Owens Corning, John began focusing on end-user training for business clients. This experience in training led him back to BGSU where he earned his certification for teaching students in grades 1-8. John spent 23 years teaching in the public school system, where he worked with students in grades 3, 4, and 5.

As a proud parent to two Latinx children, John has seen first-hand the need for and importance of a diverse teaching workforce. John is excited to be the Like Me coordinator at Lourdes to help create that more diverse and equitable educational environment for all children.
